

MUHAMMAD ALEEM MADNI KHAN

Software Engineering Student | Full Stack Java Developer

Karachi, Pakistan | +92 319 8289183 | aleem90909m@gmail.com

[LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

- Software Engineering undergraduate at SMIU with a CGPA of 3.69/4.00.
- Skilled in Java, Spring Boot, Spring Security, React, MySQL, and PostgreSQL.
- Strong foundation in RESTful API development, JWT Authentication, Object-Oriented Programming, and Database Design.
- Seeking a Software Engineering or Full Stack Java Developer Internship to contribute and grow in a professional development environment.

TECHNICAL SKILLS

Languages: Java, JavaScript, C, SQL, HTML5, CSS3

Backend: Spring Boot, Spring Security, Spring Data JPA, Hibernate, RESTful APIs, JWT Authentication, Refresh Tokens

Frontend: React.js, Vite, Tailwind CSS, Axios

Databases: PostgreSQL, MySQL

Developer Tools: Git, GitHub, Maven, Postman, Swagger

Core Concepts: OOP, Data Structures, Relational Database Design, Database Normalization, CRUD Operations, Secure API Development, Clean Code Principles

PROJECTS

Student Management System (Full Stack)

Spring Boot, Spring Security, React, PostgreSQL, JWT, Tailwind CSS [GitHub](#) | [Live Demo](#)

- Built a secure full-stack Student Management System with a Spring Boot backend and React frontend, supporting Admin, Teacher, and Student roles.
- Implemented JWT authentication with refresh tokens, alongside role-based and permission-based authorization using Spring Security.
- Developed CRUD modules for Students, Teachers, Admins, Courses, Enrollments, and Marks with a layered architecture (Controller, Service, Repository).
- Designed a normalized PostgreSQL schema to support efficient, scalable data management across all modules.
- Built responsive React interfaces integrated with RESTful APIs, including automatic GPA calculation, centralized exception handling, and request validation.
- Documented all API endpoints using Swagger for streamlined testing and integration.

Spring Security JWT Product Management API

Spring Boot, Spring Security, JWT, MySQL, Swagger [GitHub](#)

- Developed a secure RESTful Product Management API with Spring Boot, implementing JWT authentication and refresh token functionality.
- Configured role-based and permission-based authorization using Spring Security to control endpoint access.
- Applied global exception handling and request validation to ensure robust, predictable API behavior.
- Documented and tested all REST endpoints using Swagger UI and Postman, following clean architecture and RESTful API design practices.

EDUCATION

Bachelor of Science in Software Engineering (BSSE)

Sindh Madressatul Islam University (SMIU) — Karachi, Pakistan
CGPA: 3.69 / 4.00

2025(September) – Present

Intermediate (Pre-Engineering)

Govt. Degree college SRE Majeed (BIEK) — Karachi, Pakistan
Percentage: 78%

2023(April) – 2025(June)

LANGUAGE PROFICIENCY

- Urdu
- English
